SUMMARY

As a mathematics and computer science graduate, I possess a strong motivation to excel in my field. My expertise lies in Python programming language, and I have hands-on experience in creating web applications using the Django and FastAPI frameworks. I have a comprehensive understanding of database management, including both SQL and NoSQL databases. Additionally, I have collaborated on team projects using Git for version control. My analytical and problem-solving skills are robust, and I am an effective communicator and team player.

SKILLS

Computer Science & Data Structures	Programming Skills	Communication & Interpersonal
Data analysis, Algorithmic thinking, Linked Lists, arrays	Python, Django, FastAPI, Git Version Control, MongoDB, MySQL, Docker	Effective communication Ability to lead and manage projects Decision-maker & problem solver

EXPERIENCE

BlackBox Kenya Backend Developer	Nairobi 2022-2023
<ul style="list-style-type: none">During my internship at BlackBox a Software Developer from [Dates of Employment], I collaborated with a team to create a web application with the use of the Django framework. My responsibilities included working on the database design and implementation using both SQL and NoSQL databases. In order to maintain version control and work alongside my teammates, I utilized Git. Additionally, I actively participated in code reviews and testing to guarantee the application's high quality.	

EDUCATION

Multimedia University of Kenya Bachelor of Mathematics and Computer Science
September 2019 - May 2023
St. Joseph’s High School, Githuguri Kenya Certificate of Secondary Education
Jan 2015 – Dec 2018
Grade B+

PROJECTS

- Developed a student management system using Django, Bootstrap and MySQL
- Developed a RESTful API using Django RestFrame and FASTAPI
